MAGIC CROCHET

THIS IS
A PUBLICATION
BY
TRICOT SELECTION

Dear Reader,

TRICOT SELECTION has the pleasure to bring out this special publication «MAGIC CROCHET» for all Crochet Lovers.

We are sure that our beautiful patterns will tempt you to try their execution. Our drawings will help you to get on quickly and to come to an excellent result.

At the end of this magazine, you will find the way of interpreting the signs used in the realisation of our drawings and some data regarding the basic stitches employed in this book. We would like to point out that the bold-faced type figures appearing on each drawing correspond to the number of the row and that the faint ones give the number of chain stitches to make in a loop.

If you should have any difficulty during work, please write and we shall do all we can in order to satisfy you.

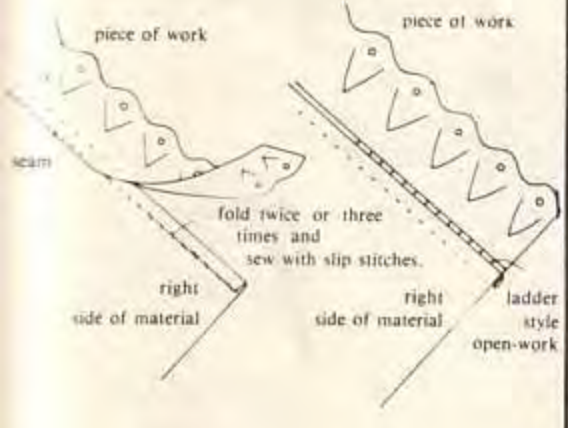
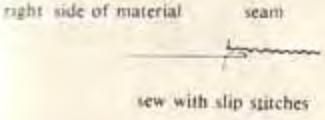
How to assemble a crochet work with material

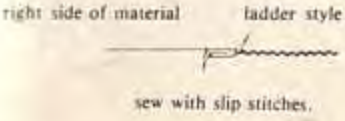
1 — Setting material on work
Make piece of work according to size of material. Fold the edge of the material and place piece of work under material with overlapping of material of 3/4 inches. Baste and sew with sewing machine. Use slip stitches to sew edge of work to material.

2 — Setting piece of work on material
As in n. 1, make work according to size of material. Fold edge of material twice or three times and sew with slip stitches. Place work over this hem. Turn over and sew edge of material on work.

3 — Bringing together both edges and assembling
As in n. 1, make piece of work according to size of material. Fold edge of material twice and sew. Place edges and material together and assemble them with ladder style open-work.







To change colors

1 — To work in stripes of different colours
Before pulling the last loop of the 1st row, change to a yarn of different color and proceed as in 1. Make a chain to start a new row changing the direction (2).
